

Environmental Education Centre
Presents
An Introduction To
Macro Photography
With Craig Ingram

© Craig Ingram www.craigingramphoto.com.au

18th and 19th of August 2012

Educational courses sponsored by

- DIRECTIONS TO GLUEPOT RESERVE**
1. TURN LEFT OUT OF SHELL SERVICE STATION.
 2. TAKE FIRST TURN RIGHT TO FERRY.
 3. AFTER FERRY CROSSING, FOLLOW BITUMEN ROAD TO MORGAN/RENMARK ROAD - 11 KM.
 4. TURN LEFT AND TRAVEL 3 KM TO CHRISTADELPHIAN CHURCH ON RIGHT - LUNN ROAD.
 5. TRAVEL 1.5 KM DOWN GRAVEL ROAD TO FIRST GATE.
 6. FOLLOW SIGNS TO GLUEPOT.

Accommodation at Gluepot:

Although accommodation is available at Waikerie, it is 64km away (1 1/4 hours travel) so we suggest you camp at the Reserve as your best option. There are three camping grounds to choose from and you will need to be fully self-sufficient in regard to your camping equipment, water and food supplies. The camping grounds provide well-spaced sites that are suitable tents, caravans and vehicles. Toilets are provided at each camping ground but power is not available. The Reserve has an excellent, well maintained track system suitable for 2 WD vehicles and mountain bikes. Course fees include camping fees.

What you will need to bring to the course:

A hat and sunscreen and some warm clothing as we will be heading out early on the Sunday morning. A notebook will come in handy during the lectures and a pair of binoculars may be useful for the field trips.

What equipment you will need.

The course is designed for photographers so bring your camera whatever you shoot- film, digital, SLR or compact. A lot of the information in the course is geared towards digital photography but you will benefit what ever format you shoot. If you have a laptop computer bring it with you as you will be able to follow along during the tutorials, (software supplied).

Have you ever been fascinated by the complex patterns formed in a petal and wondered how to capture that on film? Discover the exciting world of close-up photography in this fun, informative 2-day workshop.

Daily tutorials about the equipment and technique used in macro photography

will be followed by time behind your viewfinder discovering hidden treasures in the magical miniature landscapes that Gluepot has to offer with Craig shooting at your side to help you with and questions you have while in the field.

What you will learn

Some of the topics that will be covered during the two days include,

- What equipment to use and why? Extension tubes and supplementary lenses.
- Natural and electronic flash lighting; Reflectors, bowl lighting and TTL flash.
- In The Field Techniques; how to control back grounds using focal length and aperture, paralleling subject to maximise depth of field.

About Gluepot

Gluepot Reserve is a 54,000ha conservation reserve situated 64km north of Waikerie in South Australia's Riverland district. Gluepot was purchased by Birds Australia with the aim of "effectively managing a large, internationally significant area for biodiversity conservation". Among the 18 nationally threatened bird species resident on Gluepot are Black-eared Miner, Redlored Whistler, Regent Parrot, Striated Grasswren, Major Mitchell Cockatoo and Malleefowl, that are only a small section of the 190 bird species recorded there so far. There are few areas of the world that support such a concentration of threatened species.
